Land for Sale

Rom-1 District

It is proposed that zoning be expanded to allow limited retail convenience goods and services as accessory uses in large planned developments. It is recommended that limited retail and service uses also be permitted as parts of large planned office developments and open to both office project tenants and the public. The intent is to reduce lunchtime traffic from these large employment centers by providing economically viable retail uses on site. It is envisioned that a center would provide approx. 25,000 SF of retail use.
